***Oath/Declaration***

The new oath provided 11/8/04 is acceptable.

***Remarks***

Applicants' comments stating that "they do not acquiesce in any claim construction based upon that statement. Applicants respectfully remind the examiner that claim interpretation is a matter for the courts" is not well taken. In fact, it is the function of the examiner to construe the claims as presented. See in re Volk, 207 USPQ 1086. Additionally the examiner has made the most reasonable interpretation of the scope of the instant claims consistent with the specification, another function of the examiner, and has conveyed this position clearly and consistently throughout prosecution of this application.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, line 2 of the continuing data, prior to the period, insert "now U.S. Patent No. 6,696,383".
